

O'MARA INCORPORATED

introduces

WICKFAST

O'MARA INCORPORATED, the leaders in solution dyed polyester and nylon yarns, introduces **WICKFAST**, a superior moisture management yarn. Our unique vertical ability enables us to create a yarn that moves moisture substantially faster than "normal" polyester, nylon or cotton.

WICKFAST engineered yarns move moisture faster keeping fabrics drier longer. It is currently available in natural or color and can be combined with a silver based antimicrobial giving your customers even more value.

Now only O'MARA INCORPORATED offers solution dyed moisture management yarns with odor fighting technology.
